A DAY OF HEAVY DEALINGS

The Stock Market Week Opens With Active Trading.

The Goulds and Junior Vanderbilts Conspicuous Features in the Rail. way List-A Reaction Caused by News of the Southern Tornado.

NEW YORK, March 25-The week in the stock market opened with trading is tremendons volume and with extensive and general advances in prices appearing. From the opening of the market, pract realizing sales were in immense volume, so heavy, in fact, that occasionally prices yielded under the pressure.

An active new demand was commonly reported, however, and the diverse movements in prices furnished excellent opportunities for quick trading by the professional element. Foreign houses also dealt very heavily in the local market, and on balance were buyers to the extent of about 40,000 shares. Their purchases, were, for the most part, in the

onthracite coal issues.

Owing to the recessions, following on the initial advances, the general course of prices was rather irregular, but the market retained the exceedingly strong adertone which has characterized B for

and Lake Erie issues scored a fairly rapid advance.

Reports gained currency about a idday that the city of Birmingham, Ala., had been devastated by a cyclone from the Gulf of Mexico, and on these Tennessee Coal and iron aroke rather sharply, its course making it almost the soile exception among the so-called specialties, which were otherwise exceedingly strong. For the same reasons that depressed Tennessee Coal, Louisville and Nashville, after a further advance underwent a sharp reaction. Eisewhere among the specialties Western Union showed decided strength, and smart advances were noted.

statement.

Statement after a dvance underwent a simry reaction. Elsewhere among the specialities Western Union showed decided atrength, and smart advances were noted in General Elsetric and Consolidated Gas. There were large dealings in Amnigamated Copper, in which instance the fluctuations were exceedingly erratic. Apart from the new litigation instituted this morning by the sternal litigant against the Amaigamated properties, there was no news bearing on the stock.

The dealings in the Industrial quarter were not particularly active. Firm beatures there were the International Paper issues, and, generally speaking, the steed industrials. In the curb market there was an exceedingly rapid further advance in American Bridge issues on a renewal of the reports that the American Bridge Company will be taken over by the United States Registered 2s, \$500 (1115). Washington Traction and Electric States Steel Corporation on very favorable terms.

The bulk of the dealings among the incompany 2003; Washington Traction and Electric Estate Title Insurance Company, 2003; Washington Telephone, 107; Washington Telephone, 107;

able terms.

The bulk of the dealings among the industrials, however, was in Sugar Belluing,
in which the price movements continued
industrials.

There was heavy selling of stocks yesterday, and during the last hour prices went of sharply all over the last from prices went of sharply all over the last. The fears of many conservative people that a reaction is at hand were confirmed by this break. It could be seen that there was an immense amount of long stock coming out in the morning, but at first the buying orders were also very heavy, and there was a recovery. Later in the day the continued selling overshadowed the buying and stop loss orders were reached in considerable numbers. As far as could be seen there was no support from the important interests during the afternoon. Prices dropped sharply half a point at a time, and there was no recovery. The closing prices were for the most part the lowest of the day, and lower than those of any time Saturday. There was no news, or little, that should have caused a change of sentiment, and it is to be inferred that the break has been inevitable, because of technical conditions alone. Advances such as those of the last two or three weeks are silways followed by reactions on profit taking.

The outlook is for a further decline to-

The outlook is for a further decline today and later in the week. It is, of course,
possible that the big interests that have

American Graphophone, ptd. 118

Beartch's Book is in great demand. Everybody calls for it, because it is gone and wholesome. Washington Market. 14% Phone West 24, Arlington Bottling Co., for a Case.

been supporting the market up to this time will come to its rescue today or tomorrow and prevent much further decine. One reason for this is that the
Morgan Steel Trust is to be floated next
week, and Mr. Morgan may desire a
droug market on which to float it. In
this event the important break will come
the week after, perhaps. Some of the
most conservative people in the street
are advising the taking of profits on every
longe. They advise waiting for a sharpge. They advise waiting for a sha tion before making further purchas broak when it comes, should extensive or ten points, these people thin

The break when it comes, should extend for live or ten penns, these people think. The news of the cyclone in the South had a depressing effect on Tennessee Coal and Iron, but me effect on the general market. It is nossible that Louisville and Nashville and the Southern Railway securities may be sold today on account of it, though this is not likely, as these stocks are both extremely bueyant for very good reasons. The banks have lost nearly \$2,000,000 since hist Friday, and it can be seen that an advance in call lour rates to 4 or 5 per cent, or even higher, could be engineered with no difficulty if the insiders for any reason should desire a tighteening of money and a decline in the stock market. Indeed it is probable that rates are now being held down arbitrarily by the money syndicate, while the various railway and industrial plans are being carried through. The banks have a very slim margin over the legal requirement. Monoy is plentiful in the country, as a whole, and there is no likelihood of any serious monetary disturbance, as has been pointed out heretofore, but a temporary period of hardness is not unlikely. The outlook in China is less reassuring than it was at the close of last week. The street is canvassing the possibility that Japan and Russia may come to blows. The date for the decision of the miners as to a strike is near at hand, Many believe that there will be no strike but evidently it is unaafe to base a bull campaign on the chance. London was a buyer of American stocks yesterday, but the orders came from this side largely.

And the control of th

The deal for the purchase of the Rio Grande Western for the Denver and Rio Grande is semi-officially stated to be complete. It is supposed that the latter road will now be taken into the Greater Missouri Pacific. A complete merger is not likely, as that might cause the diversion of traffic now given them by other lines in the territory to the systems that are most settly competitors. An announcement of some kind is likely today or later this week. It is said that the Denver securities may be advanced on this statement.

FAT AND LEAN

That is, babies: fat, they are happy and safe; lean, they are neither happy nor safe.

Apart from being entirely healthy or not quite well, a fat one has much reserve of vital strength to resist any sudden attack, while the lean one has little or no reserve.

The way to be fat and well is Scott's emulsion of cod-liver oil. A little: only a little. Not any, if healthy and plump already; "let well enough alone."

We'll send you a little to try if you like. SCOTT & BOWNE, 400 Pearl street. New York
